# WTC Utah Observations

**January 2013:** Continuing economic uncertainty and fluctuating commodity prices posed difficult challenges for Utah exports to overcome early this year. Despite the challenges, exports of diversified manufactured goods grew at a rate of 11% over January 2012. This success was driven in part by a strong performance in the Transportation Equipment industry. Several foreign markets, including India, Brazil, China, and The Netherlands, all experienced significant growth in imports from Utah –good news as Utah continually strives to diversify its export destinations.
