## WTC Utah Observations

Exports in May grew about 6 percent compared to April 2015 and grew 25 percent compared to May 2014. This growth can be attributed to the notable increase in the export values of metals.

For the first time in 2015, Hong Kong was not in Utah's top five export destinations. Exports to the United Kingdom more than doubled compared to exports to the United Kingdom in April 2015, which can also be attributed to the increase of export in metals.
