WTC Utah Observations

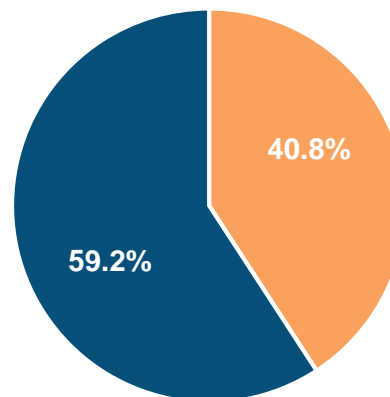

In December, Utah's value added products and metals experienced an increase in exports that allowed 2015's export numbers to finish off stronger than 2014's. However, for only the second time in 10 years, value added exports in 2015 decreased from the previous year.

Hong Kong had its second-strongest month for the entire year of 2015 in December at \$293 million.
